

ODUJEBE OLALEKAN SOLOMON

Frontend web developer

Email: Lekansolomon18@gmail.com | Phone: +2348138522649

GitHub: <https://github.com/Maloney18>

Work Experience

Frontend developer | Paypetal – Lagos, Nigeria | December 2024 to April 2025

- I collaborated with one other frontend developer to build visually appealing and highly functional web pages, using next js and typescript.
- The web pages were optimized by 20% resulting in a faster load time, and good user experience.

Education

Bachelor's Degree in Computer Science | Federal University Oye Ekiti, Ekiti

October 2019 – July 2024

- Relevant Coursework: Data Structure & Algorithms, System Development Life Cycle, Web Development

Projects

Trendy

- Built a responsive frontend application using Next.js and TypeScript to showcase movie and series details, including upcoming releases
- Integrated YouTube and TMDB APIs to deliver dynamic trailer streaming and real-time media content
- Leveraged React Query for performant and reliable data fetching with built-in caching and background updates
- Designed and implemented reusable UI components with Chakra UI, ensuring consistency, accessibility, and customization across the app

Phose Enterprise (Event manager portfolio)

- Designed and developed a React.js application to showcase an event management enterprise and enhance its online presence

- Integrated EmailJS to enable seamless contact form submissions without a backend
- Featured past event projects with engaging UI components and responsive layouts
- Embedded Google Maps to display the company's physical location for improved accessibility and user trust

Password Manager

- Built a dynamic React.js frontend with seamless integration to a Firebase backend, focusing on user experience and responsiveness
- Implemented authentication flows and interactive CRUD operations using Firebase Firestore and Firebase Storage
- Utilized Axios for efficient client-side API requests and streamlined data handling
- Managed complex UI state using React-Redux, enabling scalable and maintainable frontend architecture

Skills

Programming Languages

- JavaScript (ES6+), TypeScript

Frontend Development

- React.js, Next.js, Tailwind CSS, HTML, CSS

Other Tools & Technologies

- Git, Github
